LC1502
1200/2000 Series - Accessory - 2 Loop Extension Card

General

The LC1502 is a loop extension board for 1200/2000 series fire panels. It allows for 2 class-A or 4 class-B loops to be added to the fire panel, and supports up to 128 addressable loop devices per loop.

Protocol Support

The LC1502 supports the Aritech 2000 series and 900 series addressable protocols.

Details

- 2 Class-A or 4 Class-B loops
- Up to 128 devices per loop (protocol dependent)
- Supports various detector protocols
- No hardware address required
