The **XR800** and **XR900** are new wireless control panels by AMC. The control panels are equipped of 64 wireless zones that are configured in different functions (alarm, robbery, smoke, detection, seismic). They are able to notify one or more situations of ALARM, ROBBERY, TAMPERING and TROUBLE with different carriers:
- **PSTN LINE on board** (voice call, Contact ID, SIA fsk, etc.)
- **GPRS/3G module** (voice call, SMS, Contact ID, DC09 IP protocol for Contact ID and SIA IP)
- **IP module** (DC09 IP protocol for Contact ID and SIA IP)

The panel can be controlled by new App AMC PLUS (iOS/Android) with IP module and/or GPRS/3G module. The programming can be made with keypad and/or PC software. The programming with software can be made remotely with IP module and/or GPRS/3G module.

XR800 and XR900 are compatible with all ACCESSORIES of K and X Series:

Unika
touchscreen
keypad

K-lcd Blue
keypad
